# LITEWORX™

Lift & Tone System

## What is the LITEWORX Lift & Tone System?

- Quickly lifts and tones in as little as 20 minutes with a single application
- Lift up to 7 levels! Take a natural level 4 to an Icy Platinum Blonde in 1 application
- Achieve a full spectrum of 15 beautiful highlight and 8 lowlight shades using just 7 Color Toners
- Creates beautiful, consistent results on color treated or normal hair
- LTC Complex Lifts, Tones and Conditions, infusing hair with wheat protein, oleic acid, chamomile extract and more, for softness you can see and feel
- LITEWORX Non-Ammonia Color Toners minimize cuticle damage
- Mixes to a smooth, rich, creamy consistency, perfect for highlight/lowlight and corrective color applications. No thickening agent required!
- LITEWORX can be used off the scalp with or without dryer heat and can also be processed on the scalp at room temperature (no dryer heat) for complete creative flexibility

## How Does the System Work?

**Conditioning Oil Lightener** achieves optimum lift in minimal time, while Wheat Protein and Oleic Acid ingredients add healthy shine and condition. Formula remains moist during processing.

**Power Lifting Powder** adds a little muscle to the Conditioning Oil Lightener! Triple Lifting Agents provide a power boost that achieves up to 7 levels of lift, while leaving hair in incredible condition.

**10 & 20 Volume Processing Creams** mix with the LITEWORX formula to achieve a rich, luxurious consistency for flawless highlight/lowlight applications. Additional conditioning agents leave hair in remarkable condition.

**Non-Ammonia Color Toners** deliver pure, luminous color with amazing shine and condition. The seven color toners combine to achieve 15 highlight and 8 lowlight shades.

## LITEWORX Technique

### SECTIONING

#### Step 1: Top

Begin by taking a halo section from top of ear to opposite ear. At center round take a triangular section with the point facing crown area. Secure section.

#### Step 2: Sides & Back

On either side of top section, take triangle section with the point facing toward the face; widest part of section will sit diagonal on side of head, crossing side flat to side round. Secure section.

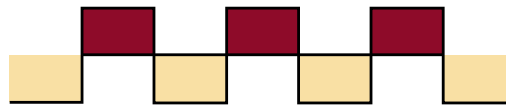

#### Step 3: Back

At center round take a 3" wide triangle section with point facing down at nape area. Secure section.

### FOILS Utilizing a chunky Gothic foiling technique as seen in this drawing

#### Gothic Weave:

- (1) Lt Copper Blonde
- (1) Light Golden Blonde

#### Step 4: Top Foils

Begin by taking a 1" wide slice of hair within a top section. Weave with the Gothic technique (insert comb 1/2" weave up, insert another 1/2" weave down, and continue in this manner for entire slice). Divide weave sections. Apply colors to both weave sections by alternating LITEWORX formulas Light Copper Blonde and Light Golden Blonde on each. Complete entire top section in this manner.

#### Step 5: Side Foils

Continue foiling hair under each of the side and back sections, using the same Gothic weave technique in a brick layered pattern following the hairline.

**PROCESSING** Preheat dryer on medium setting and process for 5-20 minutes, or until desired results are achieved. Rinse hair and shampoo with Replenishing Shampoo. Follow with Clarifying Rinse or Tressa Replenishing Conditioner to close down cuticle.

Before

### Chara's Formula

Natural Level:  
7 Dark Blonde

Desired Level: 2 Black  
Tonal Value: N Natural

Color Formula 1: Colourage Permanent Gel Color  
2N + 10 Vol Processing Cream (on all hair  
outside foils)

#### Color Formula 2: LITEWORX

Alternate two LW colors within Gothic Weave:

Light Copper Blonde: 1/4oz. 6R + 1/4oz.  
8CG + 10 Vol Processing Cream

Light Golden Blonde : 1/4oz 8CG + 1/4oz 10A +  
1/2oz Conditioning Oil + 2 scoops Power  
Lifting Powder with 1 1/2oz 20 Vol Processing Cream
